

# Subaward Agreement

Federal Research Subaward under 2 CFR 200

**Subaward Number:** UI-BSU-2024-0847  
**Prime Award Number:** BIO-2024-07821  
**Prime Sponsor:** National Science Foundation  
**Effective Date:** September 1, 2025

## Parties

**Prime Recipient (Pass-Through Entity):** University of Idaho  
**Prime Recipient Address:** 875 Perimeter Drive, Moscow, ID 83844  
**Prime PI:** Dr. Sarah Chen  
**Subrecipient:** Boise State University  
**Subrecipient Address:** 1910 University Drive, Boise, ID 83725  
**Subrecipient PI:** Dr. Emily Rodriguez  
**DUNS Number (Subrecipient):** 072995848  
**EIN (Subrecipient):** 82-0384947

## Subaward Terms

**Subaward Amount:** \$185,000  
**Performance Period:** September 1, 2025 - August 31, 2028  
**Cost Sharing Required:** No  
**CFDA Number:** 47.074 - Biological Sciences  
**F&A Rate (Subrecipient):** 48% MTDC

## Scope of Work

The Subrecipient shall perform the following work in support of the prime project 'Alpine Ecosystem Response to Climate Change in the Northern Rockies':

1. Conduct soil microbial community analysis using metagenomic sequencing at 12 monitoring plots.
2. Process and analyze soil samples collected by the Prime Recipient's field team.
3. Maintain a culture collection of alpine soil microorganisms.
4. Contribute to joint publications and annual reports.

## Deliverables

- D1. Quarterly data summaries of microbial community composition (due 30 days after quarter end).
- D2. Annual progress report aligned with NSF reporting requirements (due November 30 each year).
- D3. Final dataset in NCBI Sequence Read Archive format (due within 60 days of project end).
- D4. Co-authored manuscript(s) submitted to peer-reviewed journal(s).

## Budget

| Category       | Year 1   | Year 2   | Year 3   | Total     |
|----------------|----------|----------|----------|-----------|
| Personnel      | \$28,000 | \$29,000 | \$30,000 | \$87,000  |
| Supplies       | \$15,000 | \$12,000 | \$10,000 | \$37,000  |
| Travel         | \$3,000  | \$3,000  | \$3,000  | \$9,000   |
| Indirect (48%) | \$16,000 | \$17,000 | \$19,000 | \$52,000  |
| Total          | \$62,000 | \$61,000 | \$62,000 | \$185,000 |

## Reporting Schedule

Financial reports: Quarterly, due within 30 days of quarter end.

Technical reports: Semi-annually, due January 31 and July 31.

Final report: Due within 90 days of subaward end date.

Invention disclosures: Within 60 days of conception or first actual reduction to practice.

## Compliance Requirements

The Subrecipient agrees to comply with all applicable federal regulations including:

- 2 CFR 200 (Uniform Guidance)
- NSF Grant General Conditions (GC-1)
- NSF Proposal and Award Policies and Procedures Guide (PAPPG)
- Institutional policies for responsible conduct of research
- Export control regulations (EAR/ITAR) as applicable
